Job Description: Formulation Scientist-I

Dept: Formulation Development

Company – PraNa Biosciences Inc.

About the Position:

PraNa Biosciences is looking for formulation scientist-I for its Pharmaceutical R&D. This position will conduct activities related to formulation development under research and development settings. The candidate will involve in developing prototype formulation, process development and optimization for oral solids, semi solids, liquids, topical and injectables. A thorough understanding of pharmaceutical development process, FDA regulations, cGMP, cGLP and IND/NDA applications is highly desirable.

Responsibilities and Duties:

- Work with Lead scientist to conduct experiments related to pre-formulation studies, formulation development, process development and process optimization of drug products.
- Assist in developing complex pharmaceutical products, leading to successful NDA/ANDA filings and approval in a timely manner.
- Requires hands-on experience or knowledge to operate R&D equipment's and process equipment's for drug products.
- Work with other departments like Analytical R&D, Regulatory affairs, Clinical planning, and process development to support/meet product development timeline.
- Setting-up and cleaning equipment for experiments by following the SOPs, maintaining formulation lab in a clean and safe working environment.
- Verify documentation of records of work performed are in accordance with regulatory requirements and sound scientific standards.
- Knowledge of FDA regulations and requirements, IND/NDA processes and Good Manufacturing Practices.

Required Skills and Experience:

- MS or Ph.D. with 0-3 years of relevant work experience preferred.
- Degree in Pharmaceutical Sciences, Pharmaceutics, Chemistry, Chemical Engineering or related Field.
- Strong interpersonal, verbal, and written communication skills. Ability to work collaboratively with cross functional teams.
- Must be proficient in Microsoft Office (PowerPoint, Word, and Excel)

Physical Demands/Factors:

- While performing the duties of this job, the employee is regularly required to stand. The employee is frequently required to sit, walk, talk, hear, handle or feel tools or controls. The employee is occasionally required to reach with hands and arms, stoop, crouch,
